

Preferred Car Rental Program

American Express has partnered with four of the car rental industry's top companies—Hertz, Alamo, National and Avis—to create the American Express Preferred Car Rental Program. Each of the car rental partners offer special, competitive corporate rate programs available only through American Express Travel Offices. These programs provide access to discounted rates with unlimited miles, free upgrades when available and membership in preferred rental programs. For companies without a specific car rental contract in place or to supplement an existing program, the Preferred Car Rental Program presents excellent value and exclusive offerings to business travelers.
